Harpeth Hall Athletic Center

Protect Your Floors with Scofield Concrete Sealers

Scofield sealers protect the surface, enhance the appearance of colored concrete, and may provide protection against contamination and chemical attack by imparting a film-forming layer on the surface of the concrete. Consult a Scofield Concrete Cures & Sealers Guide.

LITHOCHROME® Chemstain® Classic is a ready-to-use, penetrating acid stain that chemically reacts with the surface of cured concrete to produce a unique and permanent appearance. Chemstain can be applied full strength, blended, or diluted for a multitude of creative color effects.

LITHOCHROME® Chemstain® Classic

Contemporary and Timeless, The Original Concrete Acid Stain
