Protect Your Floors with Scofield Concrete Sealers

Scofield sealers protect the surface, enhance the appearance of colored concrete, and may provide protection against contamination and chemical attack by imparting a film-forming layer on the surface of the concrete. Consult a Scofield Concrete Cures & Sealers Guide.

SCOFIELD® Formula One Liquid Dye Concentrate is a solvent soluble dye for coloring interior concrete surfaces. Designed for easy job-site dilution with acetone, the diluted material will penetrate into the pores of properly prepared new or old concrete. It can be applied lightly to gently tone surfaces, or heavily to develop deep colors.
